Integrating entrepreneurial skillsets and mindsets into the classroom to prepare today's students for the workforce of tomorrow.

The **Entrepreneurship Across the Curriculum (EAC)** professional learning experience is designed to train teachers of all content areas on how to integrate the tools, principles, and practices of entrepreneurs into their specific discipline to give students a distinct career and life advantage. The EAC program includes:

Hands-on Workshop Series

Our team leads this three-session PD workshop that guides your educators through the process of integrating entrepreneurship into their existing classes.

Access to a Comprehensive Toolkit

Educators will be given online access and will experience industry-standard activities and resources during workshops. All are designed to build entrepreneurial competencies in students.

Learn by Doing

Educators are immersed in a supportive learning environment where they are challenged to reflect on their instructional approach and given the opportunity to learn best practices for introducing new content and vocabulary.

Who Participates

- Applicable to elementary through high school educators who are looking to build their students' entrepreneurial thinking and skills.
- Career Tech Ed (CTE) and core content teachers, instructional coaches, and administrators.
Benefits

- INTEGRATE real world, industry-standard, entrepreneurial tools, principles and practices into any desired subject.
- ENHANCE existing courses with entrepreneurial activities to increase exposure of these in-demand competencies for all students.
- PRACTICE approaching problems and using core entrepreneurial tools.
- COLLABORATE with other educators using engaging instructional tools.

"You want to start these activities the very next day! Use these tools in every aspect of your curriculum."

F.C.S. TEACHER, NAPERVILLE D203

EAC entrepreneurship across the curriculum

Entrepreneurial Skills Are Future-Ready Skills

Entrepreneurial skills are the essential and transferable skills students need. Through this workshop, educators learn to empower students in their classrooms to acquire these critical skills, practice new behaviors, and adopt new mindsets across four distinct dimensions of the entrepreneurial journey.

Discovery

Adopting a spirit of curiosity, creativity, imagination, innovation, optimism, problem-finding, and opportunity-seeking.

Design

Approaching challenges as inherently solvable through a process of complex thinking, creative problem solving, and purposeful design.

Delivery

Effectively communicating, packaging, and telling compelling stories of big ideas while actively connecting with and influencing key stakeholders.

Development

Actively experimenting, tinkering, testing, iterating, team-building, and project-managing.

SESSION 1: DISCOVERY AND DESIGN	SESSION 2: DELIVERY	SESSION 3: DEVELOPMENT
An immersive two-day, onsite experience to learn about problem discovery, innovation, creativity, and idea modeling.	Re-engage with the cohort for ½ day to reflect on progress and step into how to plan and communicate big ideas to key stakeholders.	In the final ½ day, solidify the practical application of building and executing the iterative design process with the target market.
Creativity and Innovation Skills: • Creative Brainstorming • Opportunity Recognition • Idea Modeling with a Business Model Canvas	**Strategic Communication and Planning Skills:** • Agile Process • Pitching and Storytelling • Reflecting	**Project Management Skills:** • Rapid Prototyping • Stakeholder Engagement • Financing an Idea

Comprehensive Toolkit

Participants are provided access to a "Member Hub" for one academic year. This online platform provides full access to all the resources participants are exposed to in the workshop series.

Toolkit includes:
- Kickstart Teacher Guides
- Lessons & Resources
- Videos
- Slide Decks
- Student Activities
- Assessments
- Prep for ESB (Entrepreneurship and Small Business) Industry Certification by Certiport
